v. 31, n° 10
Outubro de 1956
Parte 2

Table of Contents

Introduction	1
Chapter I. The Role of the Anatomical Disciplines in Medical Education	7
<i>Position in the curriculum—Function of anatomists—Application to clinical problems—A science in its own right—Questionnaire disclosures—Other responsibilities of anatomists—Teaching attributes—Learning by doing—Correlated teaching—Amount taught—Advanced education in anatomy—Relation to clinical departments—Factors that might contribute to improvement in anatomy departments—Embryology—Departmental structure—Departmental diversification required—Relationship to the university.</i>	
Chapter II. Anthropology in Medical Education	25
<i>Human evolution—Human genetics—Growth—Culture—Variation—Significance to medical education.</i>	
Chapter III. Preprofessional Preparation for Anatomy.....	32
<i>Definition of a liberal education—Three vs. four years—Admission policies detrimental—Cultural vs. scientific requirements—Questionnaire disclosures—Preprofessional preparation for anatomy: Embryology—Comparative anatomy—histology—Anthropology—Questionnaire disclosures—English—Foreign languages—Emotional stress.</i>	
Chapter IV. Instruction and Learning in Anatomy	45
<i>Concepts of teaching anatomy—Applications of anatomy—Block vs. long-course system—Examinations—Textbooks—Appraisal of teaching effectiveness—Cadavers—Teaching activities—Electives—Part-time teachers—History of anatomy—Use of new techniques—Improvement of teaching—Time for anatomy courses.</i>	
Chapter V. Stimulus of Research on Teaching Anatomy	67
<i>New techniques enlarge scope of anatomy—Emphasis and content changes—New techniques utilized from other sources—Contribution to many specialties—Proposals for utilizing new material—Increased interest in integration of course material—Effect of research activities on teaching—Emphasis in teacher selection—Changing levels of interest in research—Research for the medical student—Minority of students undertake research—Research grants.</i>	

v. 31, n° 10
 Outubro de 1956
 Parte 2

Chapter VI. Recruitment and Training of Anatomy Teachers	79
<i>Shortage of anatomists—Reasons for shortage explored—Change of name suggested—Competition from other fields—Appeal of anatomy research and teaching—Factors influencing career choice of participants—More vigorous recruitment efforts urged—Publicize career opportunities in anatomy—Recruit anatomists among medical students—Increase financial assistance—Current recruitment efforts—Anatomists also go elsewhere—Salaries—Training of graduate students—Training of young anatomy teachers—Special training sessions—Cooperation of clinical departments encouraged.</i>	
Chapter VII. Teaching Opportunities and Responsibilities in Postgraduate and Clinical Years	91
<i>Increasing constrictions on curriculum—Proposals for curriculum revision—No easy solution—Anatomical education in clinical years: Courses offered—Courses favored by students, graduates—Presentation as part of clinical courses—Proposed additional courses—Advanced courses dropped—Role of clinical departments in teaching anatomy—Close cooperation urged—Consultation responsibilities—Anatomical education in the postdoctorate years: Need disclosed in questionnaire—Courses available—Subjects needing emphasis—Implementing postgraduate teaching—Scheduling and credits—Courses should answer local needs—Aid in review sessions—Formal courses for physicians—Informal consultation—Conclusion.</i>	
Appendix A. The Teaching Institute	107
Appendix B. The Questionnaire	108
Appendix C. Supplementary Tables	110
Appendix D. Anthropology in Medical Education	132
1. <i>Anthropology as an Ancillary Medical Science</i> by William Walter Greulich.....	132
2. <i>Anthropology and Human Variation</i> by J. Lawrence Angel.....	135
3. <i>Medicine's Third Dimension</i> by Benjamin D. Paul.....	137
Appendix E. List of Educational Films	140
Appendix F. Annotated Bibliography on Anthropology	141
Appendix G. Roster of Participants—1955 Teaching Institute	142

The Journal of MEDICAL EDUCATION

Official publication of the Association of American Medical Colleges, 2530 Ridge Ave., Evanston, Ill.

The Journal of MEDICAL EDUCATION is owned and published monthly by the Association of American Medical Colleges, 2530 Ridge Avenue, Evanston, Illinois; Phone DAVIS 8-9505. Entered as second class matter January 17, 1930, at the Post Office, Chicago, Ill., under the Act of March 3, 1879.

EDITORIAL BOARD: John Z. Bowers, chairman, Wisconsin; Stanley E. Bradley, Columbia; T. Hale Ham, Western Reserve; Julius H. Comroe Jr., Pennsylvania; Russell L. Holman, Louisiana State; Erwin A. Ackerknecht, Wisconsin (consultant); Dean F. Smiley, secretary.

STAFF: Editor, Dean F. Smiley; Assistant Editor, Barbara M. Peterson; Editorial Assistant, Neva V. Resek.

EDITORIAL POLICY: Articles ordinarily will be limited to 5,000 words in length. Articles longer than this usually will require treatment as a supplement and necessitate a publication subsidy. Responsibility for signed articles and editorials is not assumed by the Association's officers or the Journal's Editorial Board but by the individual author.

SUBSCRIPTION RATES: \$7 per year, \$1 per single copy; foreign \$8 per year; \$1.25 per single copy. Change of Address: Notifications of changes of address should include the old address wrapper and the new address.

COPY DEADLINE: Copy for typesetting must be in by the 1st and plates by the 10th of the month preceding publication.

ADVERTISING: Journal of Medical Education, 2530 Ridge Avenue, Evanston, Illinois; Phone DAVIS 8-9505.

REPRINTS: Each author routinely receives 25 copies of his article promptly after publication. Additional reprints may be purchased from the Journal in quantities of 100, and in multiples of hundreds at a price depending on the length of the article.
